File Code: 3400
Date: June 27, 2006

Mr. Tommy Wright
Staff Forester, Code 2432
Naval Facilities Engineering Command
Washington Navy Yard
1314 Harwood Street, SE
Washington, DC 20374

Dear Mr. Wright:

On June 12, 2006, I conducted aerial detection surveys for gypsy moth-caused tree defoliation at the Annapolis Naval Academy and Reservation, Pomonkey, Maryland Point, Blossom Point, Naval Observatory, National Naval Medical Center (Bethesda), and D.W. Taylor Naval Ship Research and Development Center (Carderock and Annapolis). I am pleased to report that no defoliation was detected at, or in the vicinity of, your sites.

However, if you anticipate requesting financial or technical assistance for gypsy moth control in 2007, please contact Brad Onken (304) 285-1546 or me (304) 285-1555 before August 25, 2006.

Please contact me at the above number if you have any questions regarding this aerial survey or survey letter.

Sincerely,

Rodney L. Whiteman
